DATA SHEET: AJOWAN ESSENTIAL OIL POWDER

Botanical's Breath unique AJOWAN ESSENTIAL OIL POWDER contains 50% essential. This is unique aromatic fine powder versatile product for a variety of nutraceutical, flavouring, aroma and cosmeceutical applications.

Botanical Name: Trachyspermum ammi,

Family Name: Apiaceae (Umbelliferae)

CAS: 8007-11-2

Description: 50% AJOWAN OIL Essential Oil 50% Modified Starch

Oil Extraction: Ajowan oil is extracted from the seeds of the Ajowan plant through steam distillation.

Characteristics: Ajowan Oil Powder has a pale yellow to brownish color and a strong, spicy aroma.

Active Compounds: The main active compound in Ajowan oil is THYMOL, which gives it its characteristic aroma and provides antimicrobial properties.

Ajowan is a small herbaceous plant native to India and the eastern Mediterranean region. It has feathery leaves and small, oval-shaped fruits.

Traditional Applications

Ajowan has been traditionally used for its digestive and carminative properties. It is also used in Ayurvedic medicine for respiratory conditions and as a topical analgesic.

Commercial Applications

Ajowan oil powder is used in the food and beverage industry as a flavoring agent, particularly in savory dishes and snacks. It is also used in perfumery and in the production of soaps and cosmetics.

Aromatherapy Applications

Ajowan oil powder is used in aromatherapy for its energizing and uplifting properties. It is believed to help with mental clarity and to alleviate fatigue.
