

BOTANICAL'S BREATH

ESSENTIAL OIL POWDERS

*Nutraceutical, Cosmeceutical,
Health and Wellness Applications*

DATA SHEET: AMBER OIL POWDER

Botanical Innovations unique AMBER ESSENTIAL OIL POWDER contains 50% essential oil. This unique aromatic fine powder is a versatile product for a variety of nutraceutical, perfume and cosmeceutical applications.

Amber oil: is made from a fossilized resin that comes from ancient trees.

CAS: 8002-67-3

Description: 50% Amber Essential Oil 50% Modified Starch

Oil Extraction Process: Amber oil is obtained through a process called fossilization, where the resin from ancient trees is hardened and transformed into a solid substance over millions of years.

Characteristics: Amber oil powder is a thick, golden-brown powder with a warm, woody, and slightly sweet aroma.

Active Compounds: Amber oil powder contains a complex mixture of organic compounds, including SUCCINIC ACID and various aromatic compounds.

Traditional Uses

Amber has been used for centuries in jewellery and decorative objects. It has also been used in traditional medicine for its supposed healing and protective properties.

Commercial Uses

Amber oil powder is used primarily in perfumery, where it adds a warm and resinous note to fragrances. It is also used in some skincare products for its purported rejuvenating and antioxidant properties.

Aromatherapy Uses

Amber oil powder is used in aromatherapy for its grounding and calming effects. It is believed to promote relaxation and stress relief.
