*Nutraceutical, Cosmeceutical,
Health and Wellness Applications*

DATA SHEET: ANGELICA ROOT OIL POWDER

Botanical's Breath unique ANGELICA ROOT ESSENTIAL OIL POWDER contains 50% essential oil. This aromatic fine powder is a versatile product for a variety of nutraceutical, flavour, fragrance and cosmeceutical applications.

Botanical Name: Angelica archangelica,

Family Name: Apiaceae (Umbelliferae)

CAS: 8015-64-3.

Description: 50% Angelica Root Essential Oil 50% Modified Starch

Oil Extraction Process: Angelica root oil is typically obtained through steam distillation of the dried roots and rhizomes of the Angelica plant.

Characteristics: Angelica root oil powder is a pale yellow to amber powder with a rich, earthy, and herbaceous aroma.

Active Compounds: The main active compounds in angelica root oil include PHELLANDRENE, PINENE, COUMARINS, and various other TERPENES. These compounds contribute to its characteristic aroma.

Angelica is a biennial herb native to Northern Europe and Asia. It grows up to 2 meters in height and has large, deeply divided leaves and clusters of small greenish-white flowers.

Traditional Applications

Angelica root has a long history of use in traditional medicine. It has been used to support digestion, as a tonic for the nervous system, and to relieve respiratory issues. It is also known for its warming and stimulating properties and potential therapeutic effects.

Commercial Applications

Angelica root oil is used in perfumery, particularly in oriental and spicy fragrance compositions. It is also utilized in the production of soaps, cosmetics, and various flavouring applications.

Aromatherapy Applications

Angelica root oil is used in aromatherapy for its grounding and balancing properties. It is believed to help calm the mind, relieve stress, and promote feelings of stability and protection.
