Botanical's Breath unique BAY ESSENTIAL OIL POWDER contains 50% essential oil. This is unique aromatic fine powder is a versatile product suitable for a variety of nutraceutical, flavouring and cosmeceutical applications.

Botanical Name: Laurus nobilis

Family Name: Lauraceae

CAS: 8006-78-8

Description: 50% BAY Essential Oil 50% Modified Starch

Oil Extraction Process: Bay oil is obtained through steam distillation of the leaves of the bay laurel tree.

Characteristics: Bay oil powder is a yellowish-green to brown powder with a strong, spicy, and medicinal aroma. It has a thin consistency.

Active Compounds: The main active compounds in bay oil include EUCALYPTOL (also known as 1,8-cineole), ALPHA-PINENE, BETA-PINENE, and other TERPENES. These compounds contribute to its aroma and potential health benefits.

The bay laurel tree is an evergreen tree native to the Mediterranean region. It can reach a height of up to 20 meters and has aromatic, elliptical leaves.

Traditional Applications

Bay leaves have been used for centuries in culinary practices for their distinct flavour and aroma. Bay oil is also utilized in traditional medicine for its potential therapeutic properties.

Commercial Applications

Bay oil is used as a flavouring agent in the food industry, particularly in soups, stews, and sauces. It is also employed in perfumery, cosmetics, and natural remedies.

Aromatherapy Applications

In aromatherapy, bay oil is known for its uplifting and soothing properties. It is believed to help alleviate stress, promote relaxation, and provide mental clarity.
