

BOTANICAL'S BREATH

ESSENTIAL OIL POWDERS

*Nutraceutical, Cosmeceutical,
Health and Wellness Applications*

DATA SHEET: BENZOIN ESSENTIAL OIL POWDER

Botanical's Breath has created BENZOIN ESSENTIAL OIL POWDER which contains 50% essential oil. This is unique aromatic fine powder is a versatile ingredient for a variety of nutraceutical, flavouring and cosmeceutical applications.

Botanical Name: Benzoin oil is derived from the resin of various tree species, primarily *Styrax benzoin* and *Styrax tonkinensis*.

Family: Styracaceae

CAS: 119-53-9

Description: 50% Benzoin Essential Oil 50% Modified Starch

Oil Extraction Process: Benzoin oil is obtained through solvent extraction or resinoid extraction. The resinous material is collected from the bark of the benzoin tree and then processed to yield the oil.

Characteristics: Benzoin oil powder has a warm, sweet, vanilla-like aroma.

Active Compounds: The main active compounds in benzoin oil include BENZOIC ACID, BENZYL BENZOATE, and VANILLIN. These compounds contribute to its aromatic profile and potential therapeutic effects.

The benzoin tree is native to Southeast Asia and grows in countries such as Indonesia, Thailand, and Laos. It is a medium-sized tree that exudes a fragrant resin.

Traditional Applications

Benzoin has a long history of use in traditional medicine and religious ceremonies. It has been used for its potential healing and soothing properties and is often used in incense and perfumes.

Commercial Applications

Benzoin oil is widely used in the fragrance and cosmetic industries. It is used as a fixative in perfumes, as well as in skincare products and soaps. It is also employed in natural remedies and as an incense ingredient.

Aromatherapy Applications

In aromatherapy, benzoin oil is used for its calming and grounding properties. It is believed to promote a sense of relaxation, relieve stress, and enhance a feeling of warmth and comfort.
