*Nutraceutical, Cosmeceutical,  
Health and Wellness Applications*

### DATA SHEET: CAMPHOR ESSENTIAL OIL POWDER

Botanical's Breath unique CAMPHOR ESSENTIAL OIL POWDER contains 50% essential oil with a carrier. This is unique aromatic fine powder is versatile product for a variety of nutraceutical, flavouring, fragrance and cosmeceutical applications.

**Botanical Name:** *Cinnamomum camphora*.

**Family:** *Lauraceae*

**CAS:** 8008-51-3

**Description:** 50% CAMPHOR Essential Oil 50% Modified Starch

**Oil Extraction Process:** Camphor Oil is obtained through steam distillation of the wood of the camphor tree. The wood chips or blocks are subjected to the distillation process to extract the oil.

**Characteristics:** Camphor Oil is a colourless to pale yellow liquid with a strong, penetrating, and characteristic camphoraceous aroma. It has a cooling sensation when applied to the skin.

**Active Compounds:** The main active compound in camphor oil is camphor itself, along with other constituents such as pinene, camphene, and borneol. These compounds contribute to its distinct aroma and potential therapeutic effects.

The camphor tree is a large evergreen tree native to parts of Asia, particularly Japan and China. It has glossy, aromatic leaves and produces small white flowers. The camphor oil is extracted from the wood of the tree.

#### **Traditional Applications**

Camphor has a long history of use in traditional medicine and cultural practices. It has been used for its potential analgesic, anti-inflammatory, and antimicrobial properties. It has also been used in religious ceremonies and as an insect repellent.

#### **Commercial Applications**

Camphor Oil is used in various industries and applications. It is used in the production of pharmaceuticals, ointments, and topical analgesic products. It is also used in the manufacturing of fragrances, soaps, and cosmetics.

#### **Aromatherapy Applications**

In aromatherapy, Camphor Oil is valued for its clearing and revitalizing properties. It is believed to promote mental alertness, relieve congestion, and provide a cooling sensation. It is sometimes used in blends for respiratory support and to create a refreshing and uplifting atmosphere.
