

BOTANICAL'S BREATH

ESSENTIAL OIL POWDERS

*Nutraceutical, Cosmeceutical,
Health and Wellness Applications*

DATA SHEET: CEDAR WOOD OIL POWDER

Botanical Innovations unique CEDAR WOOD ESSENTIAL OIL POWDER contains 50% essential oil with a carrier. This is unique aromatic fine powder versatile product for a variety of nutraceutical, flavouring and cosmeceutal applications

Botanical Name and Family: Cedarwood Oil is derived from various species of cedar trees, including *Cedrus atlantica*, *Cedrus deodara*, and *Juniperus virginiana*. These trees belong to the *Pinaceae* family.

CAS: 92201-55-3

Description: 50% CEDAR WOOD Essential Oil 50% Modified Starch

Active Compounds: The main active compounds in cedarwood oil include cedrol, cedrene, and other sesquiterpenes. These compounds contribute to its distinct aroma and potential therapeutic effects

Oil Extraction Process: Cedarwood Oil is typically obtained through steam distillation of the wood, specifically the heartwood or bark of the cedar trees. The steam carries the volatile compounds from the wood, which are then condensed to obtain the oil.

Characteristics: Cedarwood Oil Powder can vary slightly depending on the species, but it is generally a pale yellow to amber-colored powder with a woody, sweet, and slightly balsamic aroma.

Cedar trees are evergreen coniferous trees with a straight trunk, needle-like leaves, and cones. They are native to different regions, such as the Atlas Mountains (*Cedrus atlantica*), the Himalayas (*Cedrus deodara*), and North America (*Juniperus virginiana*).

Traditional Uses: Cedarwood oil has a long history of use in traditional medicine and spiritual practices. It has been used for its potential calming, grounding, and insect-repellent properties. It is also used in perfumery and as a natural wood preservative.

.Commercial Uses: Cedarwood Oil is used in various industries. It is commonly found in perfumes, colognes, and other fragrance products due to its pleasant woody scent. It is also used in natural skincare and hair care products for its potential purifying, toning, and clarifying properties.

Aromatherapy Uses: In aromatherapy, Cedarwood Oil is valued for its calming and grounding effects. It is believed to promote relaxation, reduce stress, and support a peaceful sleep environment. It is often used in blends for meditation, emotional balance, and respiratory support.
