Botanical Innovations unique CELERY SEED ESSENTIAL OIL POWDER contains 50% essential oil with a carrier. This is unique aromatic fine powder versatile product for a variety of nutraceutical, flavouring and cosmeceutal applications

Botanical Name and Family: *Apium graveolens*, *Apiaceae (Umbelliferae)* family.

CAS: 8015-90-5

Description: 50% CELERY SEED Essential Oil 50% Maltose/Maltodextrin

Oil Extraction Process: Celery Seed Oil is typically obtained through steam distillation of the crushed or ground seeds of celery. The steam carries the volatile compounds from the seeds, which are then condensed to obtain the oil.

Characteristics: Celery Seed Oil is a pale yellow to light brown liquid with a warm, spicy, and slightly sweet aroma. It has a thin consistency.

Active Compounds: The main active compounds in celery seed oil include limonene, selinene, and other constituents. These compounds contribute to its distinct aroma and potential therapeutic effects.

Apium graveolens, commonly known as celery, is a leafy vegetable with stalks and green leaves. It produces small, ridged seeds that are used to extract celery seed oil.

Traditional Applications: Celery seed oil has been used in traditional medicine for its potential diuretic, digestive, and anti-inflammatory properties. It has also been used as a flavoring agent in culinary preparations.

Commercial Applications: Celery Seed Oil is primarily used in the food and beverage industry as a flavoring agent. It is commonly found in products such as soups, sauces, pickles, and seasonings. It is valued for its characteristic celery flavor.

Aromatherapy Applications: In aromatherapy, Celery Seed Oil is known for its calming and grounding properties. It is believed to promote relaxation, reduce stress, and support a balanced mood.

It is often used in blends for aromatherapy massage, diffuser blends, and personal care products. The information provided is for educational purposes only.

Minimum order quantities apply.
