*Nutraceutical, Cosmeceutical,
Health and Wellness Applications*

DATA SHEET: CYPRESS OIL POWDER

Botanical's Breath unique CYPRESS ESSENTIAL OIL POWDER contains 50% essential oil with a carrier. This is unique aromatic fine powder versatile product for a variety of nutraceutical, flavouring and cosmeceutal applications.

Botanical Name and Family: Cypress Oil is derived from the *Cupressus sempervirens* tree, which belongs to the *Cupressaceae* family.

CAS: 8013-86-3

Description: 50% CYPRESS Essential Oil 50% Maltose/Maltodextrin

Oil Extraction Process: Cypress Oil is typically extracted through steam distillation of the branches and leaves of the cypress tree. The steam carries the volatile compounds from the plant material, which are then condensed to obtain the oil.

Characteristics: Cypress Oil Powder has a fresh, woody, and slightly spicy aroma. It is a pale yellow to greenish-yellow.

Active Compounds: The main active compounds in cypress oil include alpha-pinene, delta-3-carene, and limonene, among others. These compounds contribute to its potential therapeutic properties.

Cupressus sempervirens is an evergreen coniferous tree native to the Mediterranean region. It has a slender, tall, and cone-shaped appearance with dark green foliage and small round cones. The tree is often cultivated for its wood, essential oil, and ornamental purposes.

Traditional Uses: Cypress has a long history of use in traditional medicine and folklore. It has been valued for its potential astringent, antiseptic, and calming properties. Cypress has been used to support healthy respiratory function, soothe muscular aches and pains, and promote emotional well-being.

Commercial Uses: Cypress Oil is used in the perfume industry for its pleasant fragrance. It is also used in skincare products, bath oils, and massage blends. Additionally, cypress wood is used in construction and crafting.

Aromatherapy Uses: In aromatherapy, Cypress Oil is known for its calming and balancing properties. It is believed to promote relaxation, reduce feelings of anxiety and stress, and support a peaceful atmosphere. It is often used in blends for diffusers, massage oils, and body care products. The information provided is for educational purposes only.
