

# BOTANICAL'S BREATH

## ESSENTIAL OIL POWDERS

*Nutraceutical, Cosmeceutical,  
Health and Wellness Applications*

### DATA SHEET: DAVANA OIL POWDER

Botanical's Breath unique DAVANA ESSENTIAL OIL POWDER contains 50% essential oil with a carrier. This is unique aromatic fine powder versatile product for a variety of nutraceutical, flavouring and cosmeceutal applications

Description:

**Botanical Name and Family:** *Artemisia pallens*, Asteraceae (Compositae) family.

**CAS:** 8016-03-9

**Description:** 50% DAVANA Essential Oil 50% Maltose/Maltodextrin

**Oil Extraction Process:** Davana Oil is extracted through steam distillation of the flowering tops of the davana plant. The steam carries the volatile aromatic compounds from the flowers, which are then condensed to obtain the oil.

**Characteristics:** Davana Oil has a unique and complex aroma. It is described as sweet, fruity, floral, and slightly woody. The oil is typically dark yellow to amber in color with a thick and viscous consistency.

**Active Compounds:** The main active compounds in davana oil include davanone, linalool, geraniol, and various sesquiterpenes. These compounds contribute to its distinctive fragrance and potential therapeutic properties.

*Artemisia pallens* is a perennial herb with soft, hairy leaves and small yellow flowers. It is native to India and is primarily cultivated for its aromatic flowers, which are used to extract the essential oil.

**Traditional Applications:** In traditional Ayurvedic medicine, Davana Oil has been used for various purposes. It has been valued for its potential antiseptic, expectorant, and diuretic properties. It has been used to support respiratory health, alleviate coughs and colds, and promote emotional well-being.

**Commercial Applications:** Davana Oil Powder is primarily used in the perfume industry as a valuable ingredient in creating complex and exotic fragrances. It is often used in high-end perfumes, colognes, and other scented products.

**Aromatherapy Applications:** In aromatherapy, Davana Oil Powder is known for its calming and uplifting properties. It is believed to promote relaxation, relieve stress, and enhance mood. It is often used in blends for diffusers, massage oils, and natural perfumes.
