**Botanical Name:** *Ocimum sanctum* plant

**Family:** Lamiaceae (mint) family

**CAS:** 91845-35-1

**Description:** Up to 50% HOLY BASIL Essential Oil 50% Maltose

**Oil Extraction Process:** Holy Basil Oil is typically extracted through steam distillation of the leaves and flowering tops of the *Ocimum sanctum* plant.

**Characteristics:** Holy Basil Oil Powder has a strong, sweet, and herbaceous aroma with spicy undertones.

**Active Compounds:** The main active compounds in Holy Basil Oil include **eugenol**, **eugenol methyl ether**, and **ursolic acid**. These compounds contribute to its potential therapeutic properties. *Ocimum sanctum* is a perennial herb that grows up to 1 meter in height. It has aromatic leaves with a strong, pleasant scent and small purple or white flowers.

**Traditional Uses:** Holy Basil has been used for centuries in traditional Ayurvedic medicine for its numerous health benefits. It is considered an adaptogen, meaning it helps the body adapt to stress and promotes overall well-being. Holy Basil has been used to support respiratory health, promote mental clarity, boost the immune system, and balance emotions.

**Commercial Uses:** Holy Basil Oil is used in aromatherapy, perfumery, and cosmetic products. It is valued for its uplifting and calming properties, and its pleasant aroma makes it a popular choice in perfumes and personal care items.

**Aromatherapy Uses:** Holy Basil Oil is highly regarded in aromatherapy for its ability to promote relaxation, reduce stress, and uplift the mood. It can be diffused, inhaled directly, or used in massage blends to provide a sense of calm and mental clarity.
