

# BOTANICAL'S BREATH

## ESSENTIAL OIL POWDERS

*Nutraceutical, Cosmeceutical,  
Health and Wellness Applications*

### DATA SHEET: INULA OIL POWDER

Botanical Innovations unique INULA ESSENTIAL OIL POWDER contains 50% essential oil with a carrier. This is unique aromatic fine powder versatile product for a variety of nutraceutical, flavouring and cosmeceutal applications.

**Botanical Name and Family:** *Inula graveolens*, Asteraceae (sunflower) family.

**CAS:** 97676-35-2

**Description:** 50% INULA Essential Oil 50% Modified Starch

**Oil Extraction Process:** Inula Oil is typically obtained through steam distillation of the flowers and leaves of the *Inula graveolens* plant. Steam distillation involves the use of steam to extract the essential oil from the plant material, which is then condensed and collected.

**Characteristics:** Inula Oil has a strong, sweet, and woody aroma with herbaceous undertones. It is a thick, viscous oil with a dark yellow to amber color.

**Active Compounds:** The main active compounds in Inula Oil include sesquiterpene lactones, such as alantolactone and isoalantolactone, which are responsible for its potential therapeutic properties.

*Inula graveolens* is a perennial herb that grows up to 1.5 meters in height. It has hairy stems, broad leaves, and produces yellow flowers with a strong fragrance.

**Traditional Applications:** *Inula graveolens* has a history of traditional use in various cultures. It has been used in traditional medicine for its potential antimicrobial, anti-inflammatory, and expectorant properties. It has also been used topically for skin conditions and to promote wound healing.

**Commercial Applications:** Inula Oil Powder is primarily used in the fragrance industry for its unique aroma. It is often used as a fixative in perfumes and as a fragrance component in soaps, lotions, and other cosmetic products.

**Aromatherapy Applications:** Inula Oil Powder is not as commonly used in aromatherapy compared to other essential oils. However, it can be used in blends to create a warm and grounding atmosphere. Its strong aroma may help promote relaxation and a sense of calm.
