

BOTANICAL'S BREATH

ESSENTIAL OIL POWDERS

*Nutraceutical, Cosmeceutical,
Health and Wellness Applications*

DATA SHEET: LIME OIL POWDER

Botanical Innovations unique LIME ESSENTIAL OIL POWDER contains 50% essential oil with a carrier. This is unique aromatic fine powder versatile product for a variety of nutraceutical, flavouring and cosmeceutal applications.

Botanical Name and Family: Citrus aurantifolia, Rutaceae (citrus) family.

CAS: 8008-26-2

Description: 50% LIME Essential Oil 50% Modified Starch

Oil Extraction Process: Lime Oil is primarily obtained through cold pressing or steam distillation of the lime peels. Cold pressing involves mechanically pressing the peels to extract the essential oil, while steam distillation involves using steam to extract the oil from the peels.

Characteristics: Lime Oil has a fresh, bright, and citrusy aroma that is similar to the scent of freshly squeezed limes. It is a pale yellow to greenish oil with a thin consistency.

Active Compounds: The main active compounds in Lime Oil include limonene, beta-pinene, and gamma-terpinene. These compounds contribute to its potential therapeutic properties and citrus fragrance.

Citrus aurantifolia is a small, evergreen tree with glossy leaves and white flowers. It produces small, round fruits known as limes that have a tangy and citrusy flavor.

Traditional Applications: Lime has a long history of use in traditional medicine and culinary applications. It has been used for its potential digestive benefits, immune support, and refreshing properties. It is commonly used in beverages, culinary dishes, and as a natural flavoring agent.

Commercial Applications: Lime Oil Powder is widely used in the fragrance industry as a top note in perfumes, soaps, lotions, and other scented products. It is also used in various cleaning products, cosmetics, and culinary applications.

Aromatherapy Applications: Lime Oil Powder is highly valued in aromatherapy for its uplifting and energizing properties. It is often used to promote a positive mood, reduce stress and anxiety, and increase mental alertness. It can be diffused, inhaled directly, or used in massage blends. The information provided is for educational purposes only.

Minimum order quantities apply.
