DATA SHEET: LITSEA CUBEBA OIL POWDER

Botanical Innovations unique LITSEA CUBEBA ESSENTIAL OIL POWDER contains 50% essential oil with a carrier. This is unique aromatic fine powder versatile product for a variety of nutraceutical, flavouring and cosmeceutal applications.

Botanical Name and Family: Litsea cubeba, Lauraceae (laurel) family.

CAS: 68855-99-2

Description: 50% LITSEA CUBEBA Essential Oil 50% Modified Starch

Oil Extraction Process: Litsea Cubeba Oil is primarily obtained through steam distillation of the ripe fruits of the tree. Steam distillation involves the use of steam to extract the essential oil from the plant material, which is then condensed and collected.

Characteristics: Litsea Cubeba Oil has a fresh, lemony, and citrusy aroma that is reminiscent of lemongrass or lemon verbena. It is a pale yellow oil with a thin consistency.

Active Compounds: The main active compounds in Litsea Cubeba Oil include citral, limonene, and linalool. These compounds contribute to its potential therapeutic properties and citrus fragrance.

The Litsea cubeba tree is an evergreen tree that is native to Southern China and other parts of Southeast Asia. It has aromatic leaves and small, pepper-like fruits that contain the essential oil.

Traditional Applications: Litsea cubeba has been used in traditional Chinese medicine for its potential antifungal, antibacterial, and digestive properties. It is also used in culinary applications as a flavoring agent.

Commercial Applications: Litsea Cubeba Oil Powder is used in the fragrance industry as a top note in perfumes, soaps, lotions, and other scented products. It is also used in the production of candles, air fresheners, and cleaning products due to its uplifting and refreshing scent.

Aromatherapy Applications: Litsea Cubeba Oil Powder is valued in aromatherapy for its energizing and uplifting properties. It is often used to promote mental clarity, relieve stress and anxiety, and enhance mood. It can be diffused, inhaled directly, or used in massage blends.
