Botanical Innovations unique NEROLI ESSENTIAL OIL POWDER contains 50% essential oil with a carrier. This is unique aromatic fine powder versatile product for a variety of nutraceutical, flavouring and cosmeceutal applications.

Botanical Name and Family: *Citrus aurantium*, Rutaceae family.

CAS No: 80016-38-4

Description: 50% NEROLI Essential Oil 50% Modified Starch

Oil Extraction Process: Neroli Oil is obtained through steam distillation of the blossoms of the bitter orange tree. Steam distillation involves the use of steam to extract the essential oil from the flowers, which is then condensed and collected.

Characteristics: Neroli Oil Powder has a highly aromatic and floral fragrance, with sweet and citrusy undertones.

Active Compounds: The main active compounds in Neroli Oil include linalool, linalyl acetate, and limonene. These compounds contribute to its potential therapeutic properties, including its calming, uplifting, and skin-nourishing effects.

Citrus aurantium is a small to medium-sized evergreen tree with glossy green leaves and fragrant white flowers. It is native to Southeast Asia and is cultivated in many regions around the world for its fruit, known as bitter orange.

Traditional Uses: Neroli has a rich history of traditional use, particularly in perfumery and skincare. It has been valued for its captivating floral aroma and potential calming and soothing properties.

Commercial Uses: Neroli Oil Powder is widely used in the perfume and cosmetic industries for its delightful scent. It is also utilized in skincare formulations, aromatherapy blends, and natural remedies.

Aromatherapy Uses: Neroli Oil Powder is highly valued in aromatherapy for its ability to promote relaxation, reduce anxiety, and uplift the mood. It is often used to create a soothing and tranquil atmosphere during massage, baths, or diffuser blends.
