ESSENTIAL OIL POWDERS

*Nutraceutical, Cosmeceutical,
Health and Wellness Applications*

DATA SHEET: TARRAGON OIL POWDER

Botanical Innovations unique TARRAGON ESSENTIAL OIL POWDER contains 50% essential oil with a carrier. This is unique aromatic fine powder versatile product for a variety of nutraceutical, flavouring and cosmeceutal applications.

Botanical Name and Family: *Artemisia dracunculus*, Asteraceae (daisy) family.

CAS No: 8016-88-4

Description: 50% TARRAGON Essential Oil 50% Modified Starch

Extraction Process: Tarragon Oil is primarily obtained through steam distillation of the leaves and flowering tops of the *Artemisia dracunculus* plant. The distillation process captures the essential oil from these plant parts.

Characteristics: Tarragon Oil Powder has a strong, herbaceous, and sweet aroma with hints of anise and licorice. The scent is often described as warm, soothing, and reminiscent of the fresh herb.

Active Compounds: The main active compounds in Tarragon Oil include estragole (methyl chavicol), ocimene, limonene, and various other terpenes. These compounds contribute to the oil's characteristic aroma and its potential therapeutic properties.

Artemisia dracunculus, commonly known as Tarragon, is a perennial herbaceous plant native to Eurasia. It has narrow, lance-shaped leaves with a distinct anise-like aroma. Tarragon grows up to 1 meter in height and produces small, greenish-yellow flowers.

Traditional Uses: Tarragon has a long history of use in culinary and herbal medicine. In cooking, it is valued for its distinctive flavor and is used to season a variety of dishes. Tarragon has also been used traditionally for its potential digestive benefits, as a mild sedative, and as a source of antioxidants.

Commercial Uses: Tarragon Oil Powder is primarily used in the food and beverage industry as a flavoring agent. It adds a distinct and savory taste to sauces, dressings, vinegars, and beverages. Tarragon Oil Powder is also used in the production of herbal liqueurs, bitters, and spirits. In addition, it can be found in certain cosmetic and personal care products for its potential fragrance and soothing properties.

Aromatherapy Uses: In aromatherapy, Tarragon Oil Powder is known for its calming and soothing properties. It is believed to help relieve stress, anxiety, and nervous tension. Tarragon Oil Powder is often used in diffusers, inhalation, or massage blends to promote relaxation and create a comforting atmosphere. It can also be added to bath products for a relaxing and aromatic bathing experience.
